

A Bird of Paradise flower (Strelitzia reginae) is the central focus of the image. It has bright orange and yellow petals with a glowing blue outline. The flower is set against a background of large, dark green leaves with prominent veins. The overall lighting is dramatic, with some light flares visible.

Creating better connections in education

At Samsung, we believe a great education demands more than just great technology. That's why we've developed an unrivalled suite of smart, secure products, services and support for better results in the classroom—now and in the future.

We're pioneers in cutting-edge technology for connected learning. In this e-brochure, you can explore Samsung's comprehensive approach to improved learning and education outcomes.

The changing world of education

Education today is greatly different to even just a few years ago. Recent events have led to many changes but they've also provided many opportunities to do things differently—and better. The ever-growing presence of technology in the classroom can unify and empower both teachers and students. It maximises opportunities to:

- Develop new and innovative teaching methods
- Empower students to work in new and interesting ways
- Encourage student engagement
- Drive better student-teacher collaboration
- Securely connect across hybrid and remote working
- Save teachers and students time and effort

However, great learning demands more than just great technology. At Samsung, we feel it's important to recognise that students learn individually. That's why we've designed our solutions to enhance the all-important student-teacher connection.

Our complete suite of products, services and initiatives for education means better connection and protection, underpinned by support that seamlessly brings it all together.

We're committed to making a world of difference to the world of learning.

Why you can count on Samsung

We're proud of the heritage and hard work behind Samsung's education solutions. And we're dedicated to transforming the learning experience, for teachers and pupils. Our innovative and extensive range of computers, tablets and displays are designed to support better educational outcomes.

And you can count on the durability of our devices, as we've designed them to withstand all the rigours of student use and the school day.

Connected and protected

We recognise the importance of student and teacher safety and security. That's why you'll find Knox defence-grade security built into all our mobile devices as standard.

Samsung Galaxy Books come with all the essentials—firewall, secure boot, hardware level encryption through dTPM and file-level information-loss protection as standard. Android OS devices come with data encryption and hardware level encryption through Google Titan chip. Plus, with sandboxing¹ you can open and test files and programs in an isolated environment—to keep apps separate and data safe.

Samsung Chromebooks run two operating systems (one can be used, while the other installs security patch updates) automatically deleting a corrupted operating system before you log in.

Hardworking features

Samsung devices are packed with smart features which help save time and hassle in the classroom. This includes Samsung DeX, which connects a Samsung tablet to a Galaxy book. Samsung Notes allows for fast and easy sharing of ideas, using Samsung cloud for auto-syncing across devices. Then there's Quickshare, for instant file drop to nearby Samsung devices.

Powerful partnerships

By collaborating with other technology leaders, we can keep students connected and help them do even more. For example, Samsung devices give students access to all Google programmes such as Google Drive, Docs, Slides and more.² All data is stored in the cloud, keeping the devices clear of local files, and allowing easy work share.

Through our Microsoft partnership, we can deliver more innovative solutions and improved compatibility across Galaxy devices. So, students get a seamless experience and can work more productively.

¹ Chrome OS supports Sandboxing only ² Additional paid for licenses may be required

Security

Putting student security first

Samsung Knox³—our defence-grade security platform—is built into all our mobile devices as standard. So, your students will have the freedom to learn how and where they want.

It's always working to secure your devices—even when they're not switched on. With the addition of Knox Suite⁴, you can also customise and manage all content for complete control over security profiles, student access and data.

Devices switched off:

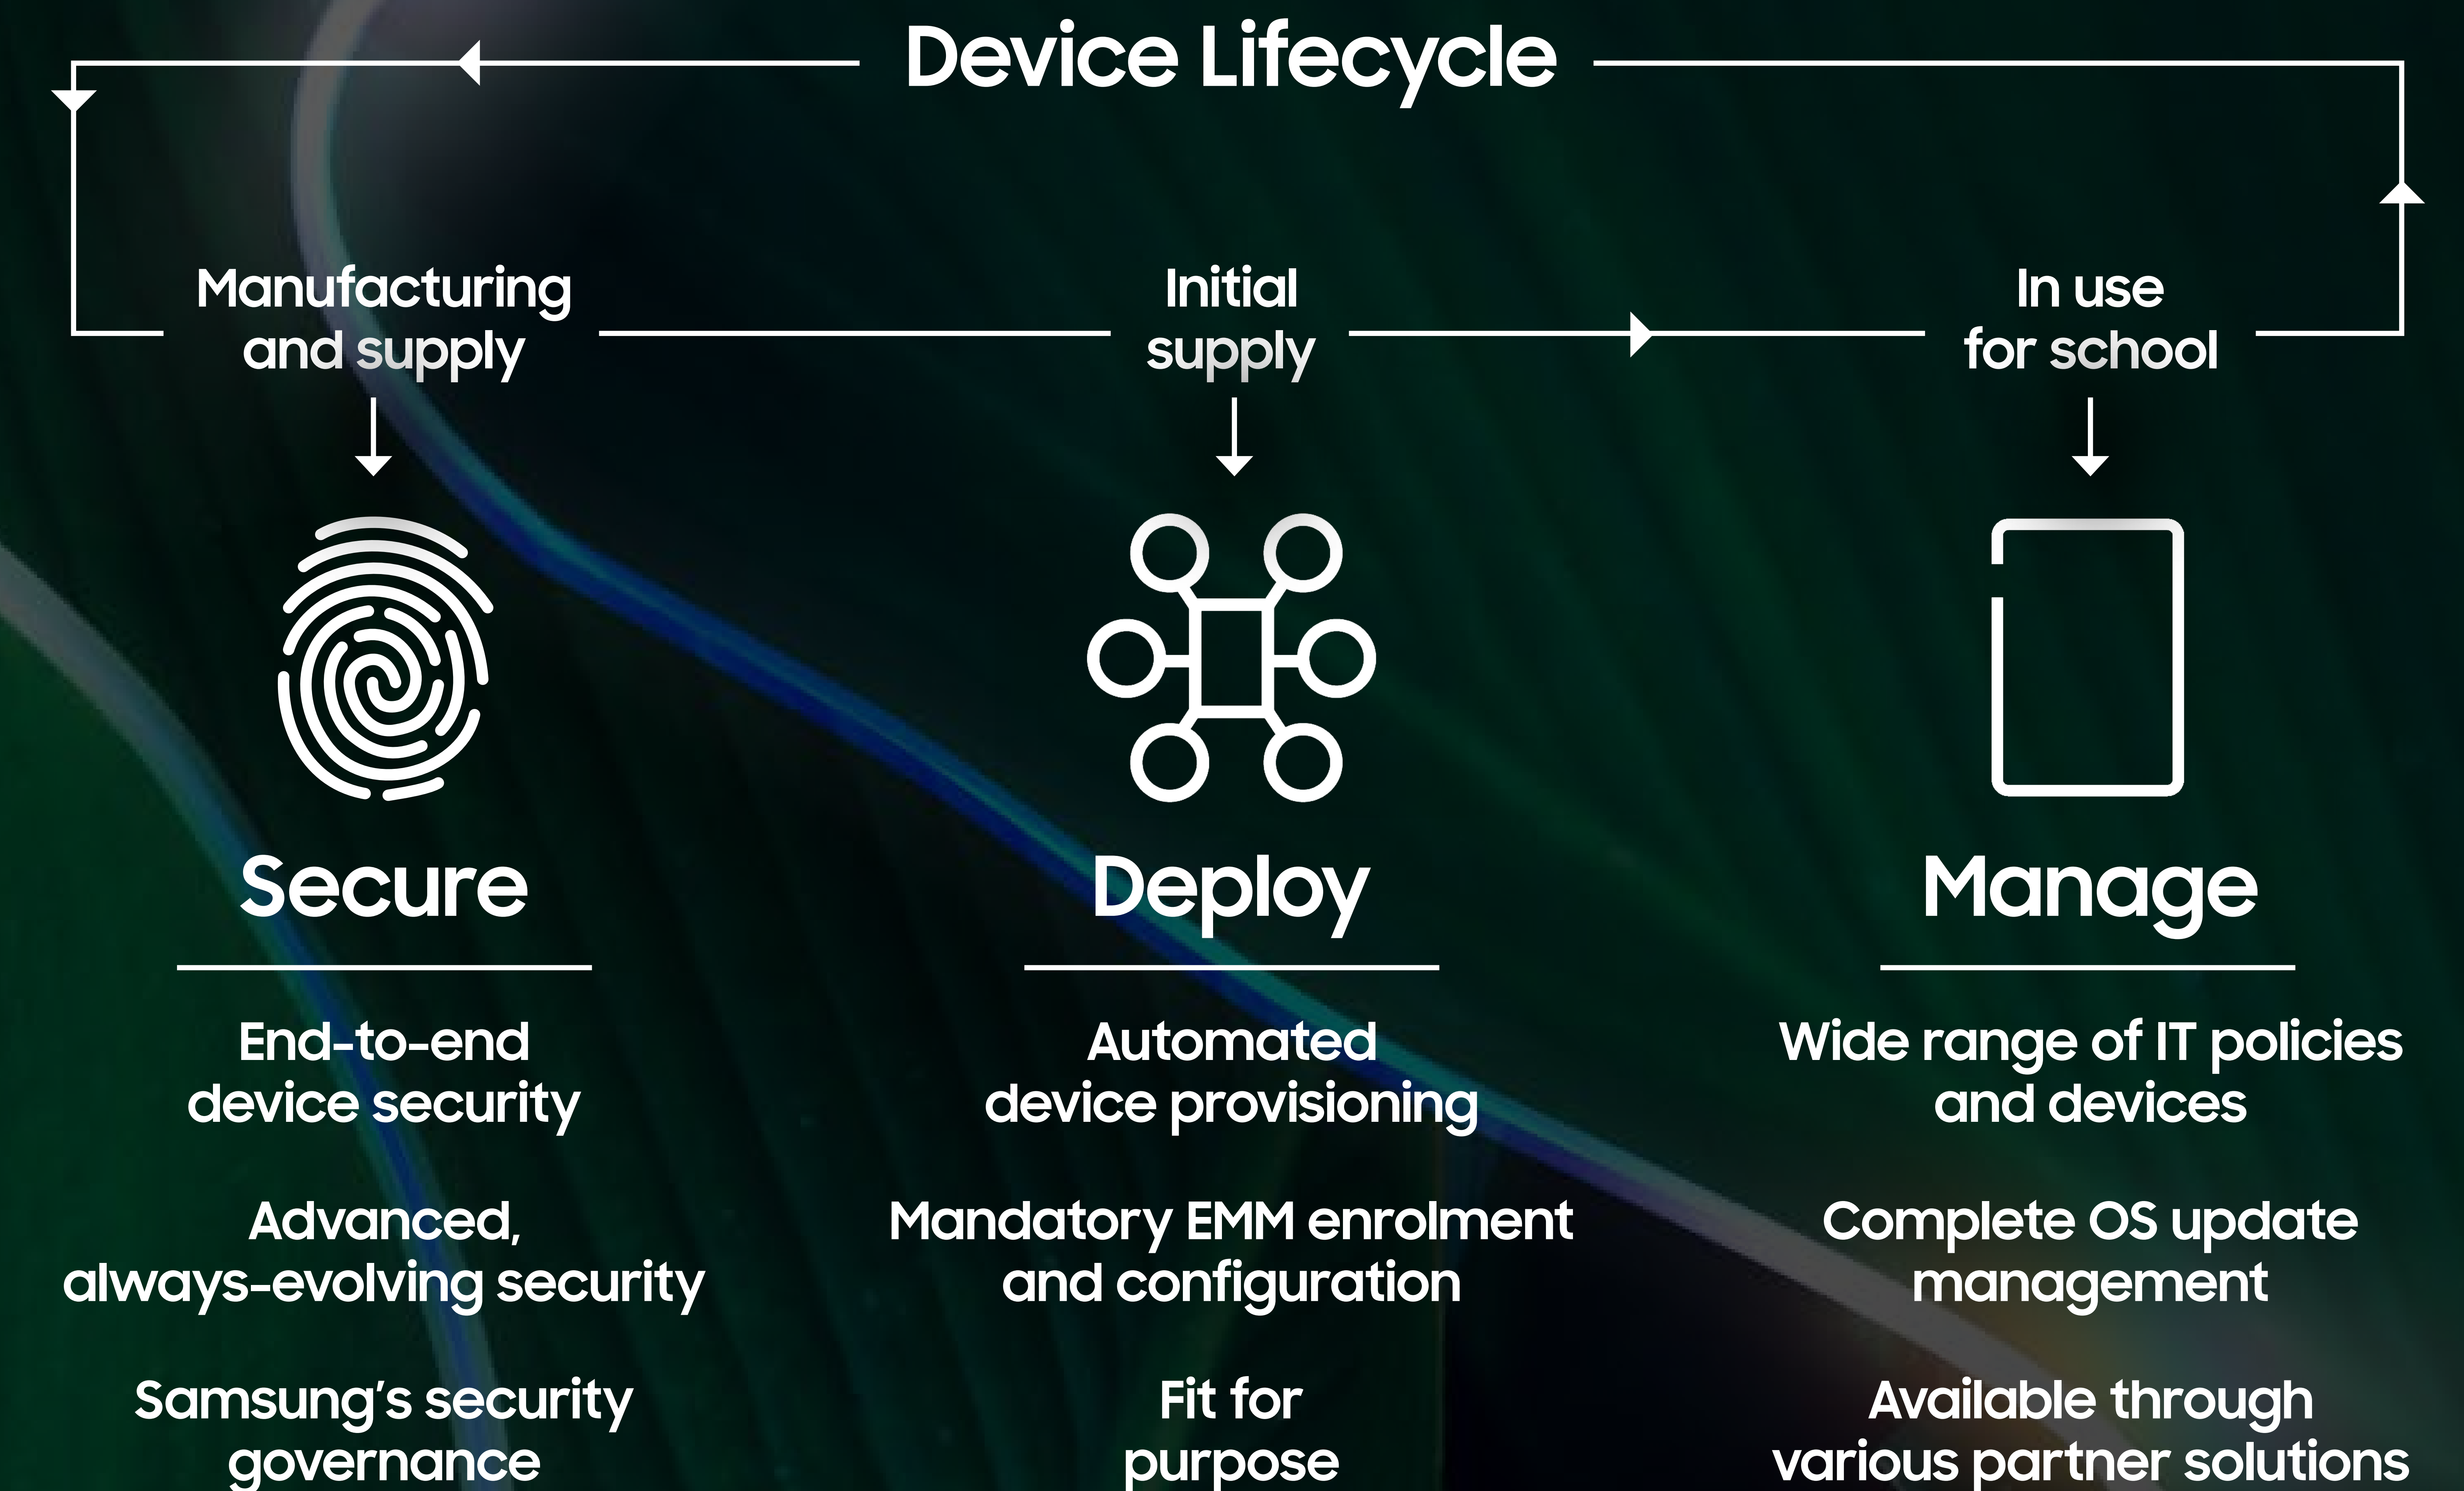

- Secure boot makes sure devices only load trusted software

- Data encryption protects information at all times

Devices switched on:

- All passwords are encrypted and securely stored
- Memory is randomised and files are regularly transported
- User authentication guarantees only authorised users can access devices
- Secure Folder and Containers let users keep sensitive files separate
- Built-in anti-malware protects devices from cyber threats

With Samsung Knox, you can also access a comprehensive suite of mobility solutions⁵, covering security, manageability and productivity for the entire lifecycle of the devices.

³ Samsung Knox is available only on mobile devices. ⁴ Knox Suite is not included as standard. Additional fee applies. A one-year license is included with Enterprise Edition devices. ⁵ Services not included as standard. Additional fee applies.

Support

Powerful solutions, dynamic support

Feel supported to keep teaching and learning, from wherever you are.

With our dedicated UK-based inclusive Business Service Centre, you'll get unlimited technical support. That's hardware, software or third-party integration support for partners and customer IT departments.

All business customers and channel partners can take advantage of dedicated B2B support from Samsung Experts based in our Business Services Centre in Leeds. It's not just a hardware fix—

our teams are trained to provide expert support and advice on best practices as well as interoperability support, so you can get the most out of your devices and software.

Rest assured, some of our Windows B2B models come with a 3-year manufacturer warranty⁶ and Samsung Chromebooks come with our 12-month⁷ manufacturer warranty.

Plus, we'll pick up faulty devices, repair them and return them to the user as soon as possible to avoid any delay or disruption.

What's more, with all Samsung Chromebook and Windows devices you can also opt for 3 years Enhanced Service⁸, providing Next Business Day replacement devices with Doorstep Exchange or on-site engineer for Windows devices, to make sure everything works as it should.

Find out more

⁶ 3-year warranty applies for Galaxy Book2 Business, Galaxy Book2 Pro360, and Galaxy Book2 Pro. All other Windows and Chromebook based models have a 2-year warranty for LTE/5G models or 1 year for WiFi models. ⁷ Warranty applies from purchase date. ⁸ Additional licence for this service applies.

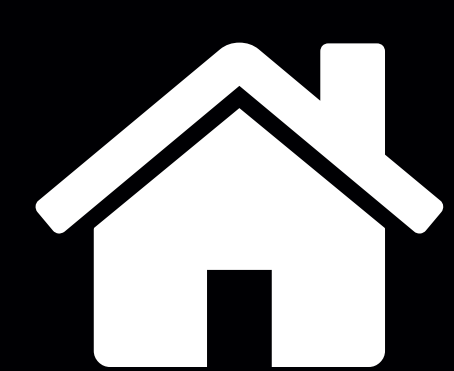

Samsung Capital

Get the education technology you need, today

Technology is evolving every day with new products, features and capabilities. You need to keep up, but we know that's not always easy when you're up against financial constraints and decision-making processes.

We can help

At Samsung, we believe every education institution should have the technology they want and need, today. That's why we offer flexible finance, and it's tailored to suit you.

Samsung Capital

Samsung Capital has partnered with Freedom Tech to bring the latest Samsung technology to staff and students in education. You get access to the latest technology, there's no big upfront cost, and it's fully compliant. You don't own the technology, so you don't have to worry about depreciation, disposal or costly upgrades.

What's the catch?

Samsung Capital offers financing solutions to customers in the UK and Ireland. Get predictable, affordable repayments and seamless, stress-free upgrades.

You can give students access to the latest Samsung computers and tablets, through a parental contribution scheme. Or fulfil all your school's technology needs, with a compliant Residual Value based operating lease. We'll make sure students and staff have the best technology experience, at home or in the educational environment.

Computing

Freedom to do the work that matters

Our wide range of Chromebook and Windows computing devices have been designed to suit any need. They're secure and strong, built for use all day long. So, the learning doesn't have to stop, no matter where your students are.

Samsung Chromebook Go

Samsung Chromebooks are as stylish as they are strong. They're sleek, modern and slim too, so they're

easy to carry around and use in any sort of environment—in the classroom, on the go or at home. They're military tested for durability, and shock-resistant, and the long-lasting battery keeps students going.

Samsung Chromebooks support Gigabit Wi-Fi, giving you a datalink of up to 1.7 Gbps. That means it's faster to stream HD content from the web, plus data can be uploaded and downloaded in just a matter of seconds—no more waiting around.

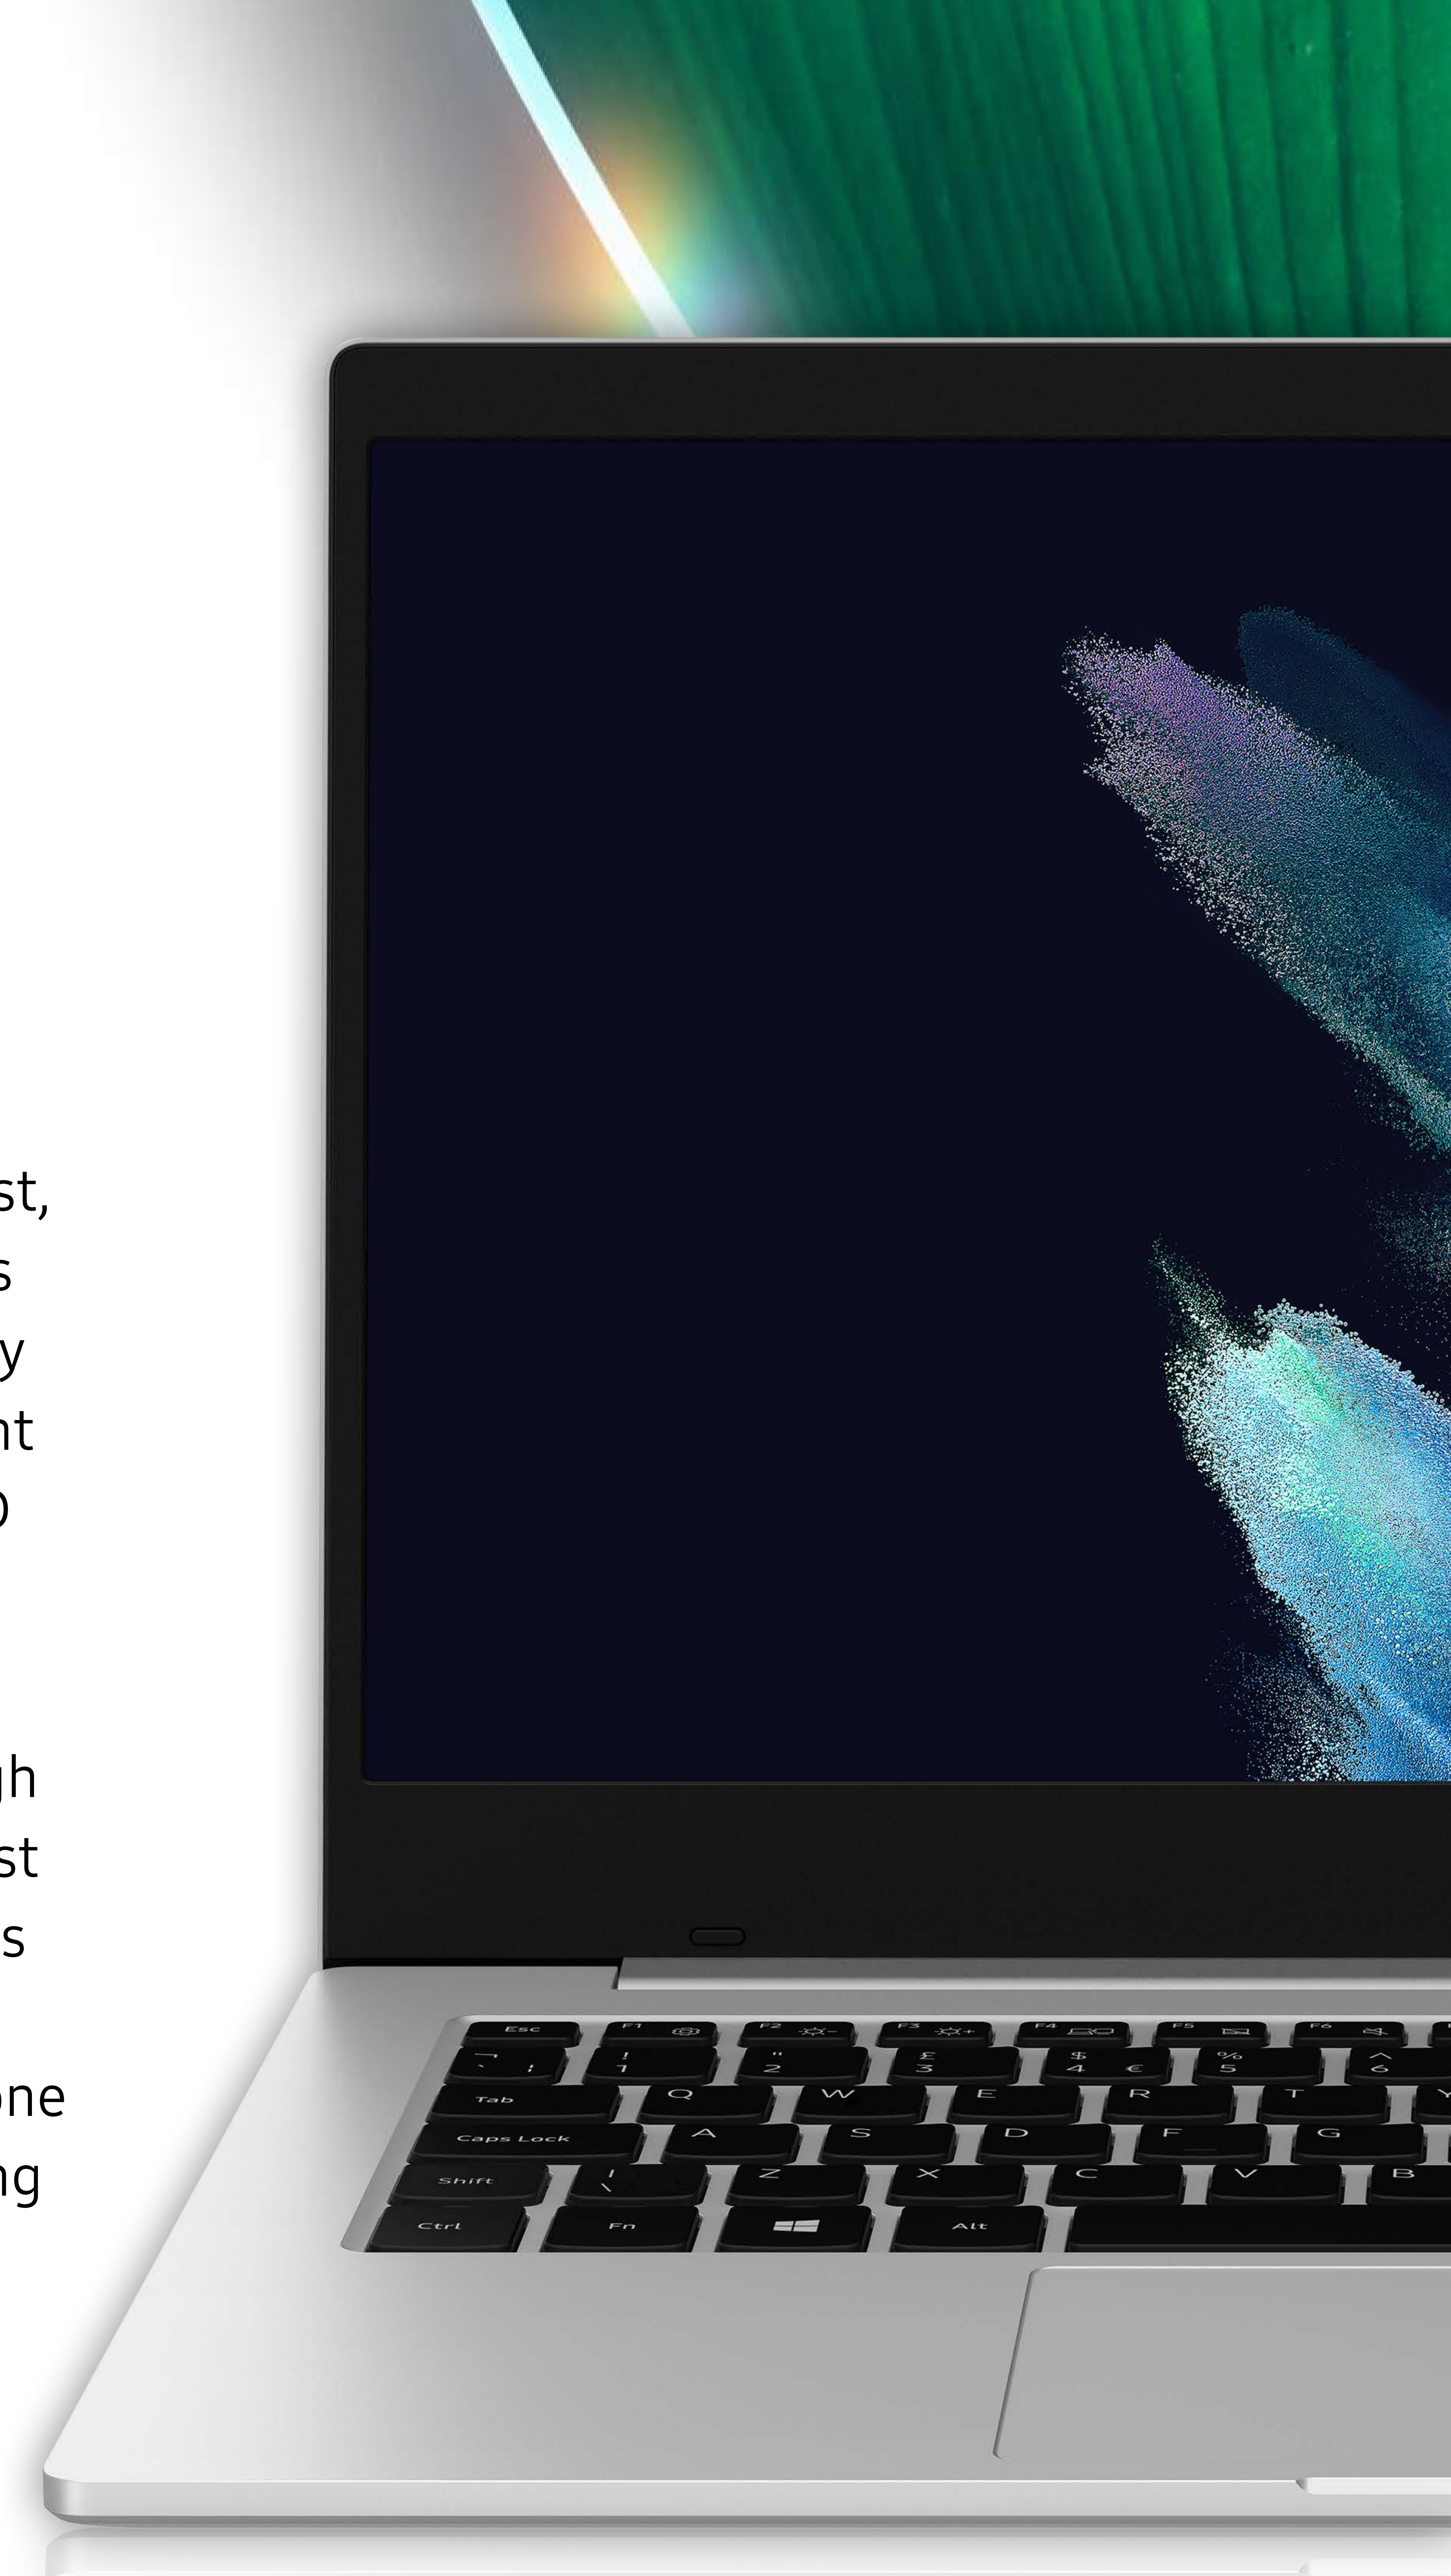

[Find out more](#)

Samsung Galaxy Book Go

The Samsung Galaxy Book Go is a robust, lightweight, powerful laptop that helps students stay productive, wherever they work. The stylish, 14.9mm design is light and easy to carry. And with a 14" full HD display, they can see their work in bold, bright high-definition colours.

The 42.3Wh capacity battery has enough power to keep going through the busiest of days. The super-fast processor makes multitasking a breeze. And with the option of 4G/LTE⁹ compatibility, everyone can stay connected and carry on working securely outside of the school, without needing to access Wi-Fi.

⁹. 4G network connection and SIM card required.

Tablets

Samsung rewrites the tablet rules

With Samsung tablets, you get the best of two worlds—they're compact for convenience with excellent content display. They pack a mighty punch with powerful performance, big screens and long-lasting battery. It's like having a PC in your pocket.

Samsung Galaxy Tab S8

The ultimate tablet for learning

The Samsung Galaxy Tab S8 is the ultimate tablet to help transform the education experience. It features the fastest processor and largest memory in a Samsung tablet to date. So, it has

more than enough speed to engage students with interactive, digital content that really brings learning to life. The S Pen gives a realistic pen-to-paper experience, so it's ideal for sketching, writing and taking notes. The Tab S8's thin, lightweight yet highly durable design means it's easy to carry and hold, and tough enough to use in the classroom. The long-lasting 11,200mAh¹⁰ battery delivers more than enough power to get through the school day. And should it run a little low, the 45W Super-Fast charging gives a full charge in just 90 minutes.

Find out more

¹⁰. Typical value tested under third-party laboratory condition. Typical value is the estimated average value considering the deviation in battery capacity among the battery samples tested under IEC 61960 standard. Rated (minimum) capacity is 10,880mAh for Galaxy Tab S8 Ultra, 9,800mAh for Galaxy Tab S8+, and 7,760mAh for Galaxy Tab S8. Actual battery life may vary depending on network environment, usage patterns and other factors

Samsung Galaxy Tab Active3

Built strong from the inside out

The Galaxy Tab Active3 is robust and reliable. With an IP68 rating¹¹ and the latest MIL-STD-810H certification¹², this durable 8" tablet is resistant to water and dust and can withstand 1.5m drops with its in-box cover. Portable and compact, it's built to tough out the day. With Wi-Fi6, it's easy to get work done. It comes with an innovative IP68-rated, water and dust resistant S Pen, providing a pen-to-paper feel and a simpler way to do work. Responsive and precise, students can easily capture and create content. They can also use it in outdoor environments for field learning.

[Find out more](#)

¹¹ Galaxy Tab Active3 and S Pen are rated IP68. IP68 rating deems devices fit enough to withstand dust, dirt, and water. Water resistance rating is based on test conditions of submersion in up to 1.5 metres of fresh water for up to 30 minutes. Not advised for beach or pool use. ¹² US Military Standard Compliant MIL-STD-810H. MIL-STD-810H is a standardised form of testing designed by the US Military to accurately assess device limitations.

Display

Show-stopping displays for immersive learning

Our diverse line up of high-impact displays reveal the future to the next generation. Brilliant clear imagery and sound gives students a rich, immersive and engaging learning experience. The kind of learning that's memorable for young minds.

Flip 2 | 3

Embrace the era of interactive learning

Samsung Flip interactive whiteboards transform the classroom through interactive learning experiences, giving you the resources needed to create effective and modern lessons. With more software and connectivity options, and intuitive interaction features, the Flip range creates engaging learning environments. Draw, write and inspire new ideas with a smooth and familiar stylus, and explore embedded education solutions from the web browser for any online source.

[Find out more](#)

LED

Combine brilliant picture quality and flexible design options, in any environment

P2.5 LED Signage offers best-in-class picture quality with advanced image refinement technology. And supports HDR picture quality of up to 8K for immersive viewing experiences that will engage and inspire your students.

At Samsung we offer simple, easy and flexible installations regardless of your space constraints, allowing everyone to see the full picture.

[Find out more](#)

VHR-R

Enjoy impactful and seamless experiences

The Samsung VHR-R provides seamless video walls with a razor-thin 0.44mm bezel, to deliver a single immersive and captivating image. Wide viewing angles allow all students to see the content clearly from anywhere in the classroom even from the back. The 700nit brightness and non-glare panel provide high visibility 24/7, and picture enhancement technology delivers optimised visuals meaning your students won't miss a thing.

[Find out more](#)

QMR

Upscale your display

Samsung's new QMR series displays cut through the clutter to deliver best-in-class UHD resolution, as well as intelligent UHD upscaling and rich flawless colours with Dynamic Crystal Colour—all in a slim design. The UHD display provides visibility

from all angles ensuring your students can see it all. With 4K resolution, the QMR series showcases lifelike images with sharper picture quality than ever before to engage your students and captivate their minds.

Education Assistant

Connect with your whole school, in a few clicks.

Samsung Education Assistant is the quick and easy way to upload and deploy information around your school. The cloud-based digital signage solution lets you select pre-made content or upload your own using themed templates. You can share important announcements, videos, images or even presentations.

The Samsung logo is positioned in the top right corner of the image. It consists of the word "SAMSUNG" in a bold, white, sans-serif font. The background of the entire image is a close-up of a Bird of Paradise flower, showing its vibrant orange and yellow petals and large, dark green leaves with prominent veins. The lighting is dramatic, with some areas of the flower appearing to glow.

SAMSUNG

A new world of Connected Learning

Samsung education solutions aim to provide an exceptional experience for students, teachers and staff alike. With powerful next-generation products, secure and seamless connection, services and support to transform the teaching and learning experience.

To find out how we can help, request a call back. One of the Samsung team will be in touch soon.
